NEW LINES FAVORED

Representatives From Eight Telephone Central Offices Set July 29 as Date—Thinks Plan Will Carry.

The bad roads made it impossible for all the representatives of the different mutual telephone lines of the county to get into the meeting yesterday, so no definite action was taken toward the organization of the lines and the improvement of the system. Another meeting was set for Wednesday, July 29.

Eight central offices were represented at yesterday's meeting, however, and the men spent the afternoon discussing the problems they want to meet. Everyone at the meeting seemed in favor of the proposed organization and extended improvements. These improvements take up the building of new lines to lessen the present overcrowded condition and the securing of long distance service. The proposed lines are: Maryville to Savannah, Maryville to Barnard, Maryville to Graham, Maryville to Skidmore, Maryville to Quitman, Maryville to Burlington Junction, Maryville to Parnell, Burlington Junction to Wilcox, and Burlington Junction to Pickering.

At the next meeting the representatives are requested to come with instructions as to how to act, so that something definite can be done. W. O. Garrett of Maryville thinks that the tone of yesterday's meeting indicates that the proposition will receive the support of everybody and carry without trouble.

The men who attended the meeting are: Dr. J. W. Larrabee, F. H. Badger, representing Barnard; Gabe Purcell, who represented both Clyde and Conception Junction; W. P. Lemon, Jacob Burch and H. E. Bancroft of Clearmont; M. C. Noland, from Guilford; William Ritchie, representing Wilcox; William Burks of Pickering, and from Maryville, W. O. Garrett, Alfred Shackelford, H. W. Hull, William Job, Robert Craven and G. P. Bainum.

A HOPKINS BOY IN LONDON.

Prof. C. W. Wallace Has Made Great Name For Himself as Shakespearean Scholar.

A former Nodaway county boy, Charles William Wallace of Hopkins, has brought himself into prominence in the last two or three years as a Shakespearean scholar. Professor Wallace is a member of the faculty of the University of Nebraska, but for the last five years has spent most of his time in London investigating records concerning the life and works of the great dramatist. A recent article says:

Prof. Charles William Wallace of the University of Nebraska has made a remarkable series of discoveries in London which throw new light on Shakespeare's character. They prove the poet to have been a good citizen, who took a kindly interest in all who were associated with him. They also show that he was a man of high standing in the community, looked up to by private persons and officials alike. They dispose of the ancient legends that he was a reckless roisterer who spent his days and nights in bibulous carousing with fellow poets and neglected his social and civic duties.

Documents examined by Professor Wallace establish beyond question the site of the Globe theater, which was built by Shakespeare.

In the course of his investigations, Professor Wallace, assisted by his wife, has examined nearly 3,000,000 documents in the public board office of London. He is now generally regarded as the highest living authority on the events of Shakespeare's life. He has found hundreds of documents mentioning Shakespeare's name which no modern investigation has ever seen. Shakespearean scholars have engaged in endless discussions about the poet, but it was too much labor to resort to that endless mine of original information, the public record office.

MRS. G. MATTER DEAD.

Funeral Services to be Held Saturday Afternoon at Home.

Mrs. Gideon Matter died early Thursday morning at the family home, 222 West Thompson street, her death following a serious illness of more than a year.

The funeral services will be held at the home at 2:30 o'clock Saturday afternoon, conducted by the Rev. Gilbert S. Cox, pastor of the First Methodist church.

A year ago in May, Mrs. Matter was stricken with the illness which lately resulted in her death. She was 61 years old and was born in Pennsylvania, coming, when a child, to Illinois to make her home. Her maiden name was Mary A. Nafe and she was married to Mr. Matter at Freeport, Ill., December 28, 1870. Shortly after their marriage, the Matters moved to Barnard and made their home on a farm near there until about twelve years ago when they moved to Maryville.

Mrs. Matter leaves a husband, two daughters, Mrs. John Z. Curnutt and Miss Ruth Matter. She also leaves two brothers, Jesse and William Nafe, of Fort Dodge, Iowa. Both brothers are in very feeble health and it will be impossible for either to come to their sister's funeral.

Wife is Appointed Administratrix.

The probate court yesterday appointed Mrs. Mahaley E. Neal, wife of John M. Neal, who died June 14, administratrix of the estate.

The suit of the drainage district No. 1 against Milton McCleve for back taxes was withdrawn this morning.

BOOSTERS HERE \$10,000 BUILDING

MAITLAND FOURTH ADVERTISERS IN TOWN TODAY.

THE HOPKINS PROGRAM

Candidates For County Offices Will Speak at Clearmont, Parnell and Conception Junction Saturday.

Eight motor cars, decorated with the national colors, suddenly pulled up on the square about 11 o'clock this morning, eighteen musicians in white uniforms stepped out and began to play lively airs. It was a party of Maitland persons advertising the Fourth of July celebration at Maitland.

The band, a very good one, attracted a crowd, and then a speaker announced the program that would be given in Maitland the Fourth and invited everybody to come. The boosters stayed here for dinner, leaving at 12:30 o'clock for Arkoe, Bolckow, Barnard, Rosendale and Graham. On their way here they had stopped at Skidmore, Quitman, Burlington Junction and Wilcox. The drivers of the cars were R. L. Walden, Edward Stouts, George Warner, C. D. Hrogefer, R. S. Nowlan, H. L. Bailey, Smith Meadows and E. F. Weller, Jr.

An Automobile Flower Parade.
One of the big features of the day is to be an automobile flower parade at 2:30 o'clock. Many cars are entered in the event already, and the men here today invited as many others to enter as would. The prizes offered for the three best cars are \$25, \$15 and \$10.

The afternoon address, beginning at 10:30 o'clock, will be delivered by B. Raleigh Martin of St. Joseph, formerly of Maryville.

The day's program will begin at 9 o'clock with music by the band. Then there will be a welcome address by H. T. McGrew. At 10 o'clock the horse show will begin, with contests for double and single drivers and saddle horses. After the address of Mr. Martin and the flower parade, the rest of the afternoon will be given over to races at the fair grounds. There will be horse races and mule races, two motorcycle races and foot races. In the evening there will be a band concert and fireworks display.

Everything but the racing will be free of charge.

Hopkins to Celebrate All Day.

Hopkins is to have a full day's celebration, too. It will be held in the city park, where there is plenty of shade and water.

The morning will be given over nearly altogether to music by the Blockton, Ia., band and the International Harmony club of St. Joseph. At 11:15 o'clock Miss Bertha Cross will read the Declaration of Independence. From 1 o'clock until 2 in the afternoon another musical program will be given. Then Carl D. Stanley of Corning, Ia., will deliver the address of the day. At 3 o'clock there will be a ball game at the ball grounds, but in the park there will be music by the Harmony club and a fiddlers' contest for those who do not care to see the ball game. Several short talks by the ministers of the town will be given to close the afternoon program. The evening program will begin at 6:30 o'clock with a band concert, after which there will be races and contests of different kinds. A fireworks display will be the last thing of the day.

County Candidates Will Speak.

Clearmont, Parnell and Conception Junction will celebrate, too. At each of these places the candidates for county offices have been invited to speak, and nearly all of them will speak at one place or another. The Clearmont celebration will be held in the Smith grove. The Bolckow band will furnish the music, and twelve girls will give the W. O. W. drill.

Pickering is to have a union Sunday school picnic, to which everyone in the community is invited, and there people of the Herren district have planned a large picnic.

ADOLPH LIPPMAN PLANS A NEW BUSINESS BLOCK.

TO HAVE DOMED ROOF

132x66-Feet Structure On West Fourth Street to Be Begun Soon—Will Be Used For Garage.

A building which will be one of the finest business houses in the city when completed, is to be built by Adolph Lippman, on his property on West Fourth street, just west of the Tribune office.

The work will be commenced in a very short time. The plans for the new structure were drawn by J. L. Mitchell, a Chicago architect, and a Maryville contractor is now figuring on the estimate of the work. The contract will be let in a few days and the work begun.

The approximate cost of the building is to be \$10,000. It will cover the entire ground space with a frontage of 66 feet and a depth of 132 feet.

The unusual feature of the building will be a dome roof with only side supports, leaving the entire floor space clear. At the top of the side walls, supporting the hemispherical roof, will be seven huge cross beams, and there will be two main entrances of uniform style. Pressed brick will be used for the entire building with gray stone and marble for the trimmings.

It is to be used for a garage and has been leased to a Maryville firm for occupancy as soon as finished, which will be about January 1.

Interesting Baby Contest

All the babies in Maryville are having their pictures taken. Some are laughing, some are crying, some are out playing and others are just posing. Every baby has a mamma and every mamma has scores of friends who will be interested in seeing the pictures of all these cunning babies. Tonight at the popular New Star Theatre, there will be held a lively contest. All the babies' pictures will be shown on the screen and everybody present will be privileged to vote for their favorite baby. A beautiful, solid gold ruby set ring goes to the baby winning the most votes. Second and third prizes will also be given. If any baby in town has not been called, he may leave his name and address at the box office at the Star Theatre and the camera man will gladly call at the house. To every baby entering the contest there will be given a portrait of itself.

Grizzlies Add Another Game to Lead.

The Grizzlies, who are leading in the Normal school base ball tournament, won another game yesterday afternoon, defeating the Giants by a 5-4 score.

The Giants, although hampered by the absence of Captain Ferguson, played good ball. Each team made three scores in the first inning. The Giants took the lead in the next round, making one score, but were tied in the fourth, when an error on their part let Campbell score. Bird scored on a sacrifice hit in the last inning, winning the game for the Grizzlies.

The Athletics are playing the Giants this afternoon.

Found to Be of Unsound Mind.

Solomon Clark of Pickering was found to be of unsound mind and incapable of managing his affairs, by a jury in probate court late yesterday afternoon. Howard Wray of Pickering was appointed guardian of person and estate. The jury in the case was composed of W. A. Townsend, J. H. Thorp, Cooper Gooden, R. P. Hosmer, LeGrand Gann, A. R. Ledgerwood, Ezra Phipps, Ray Farrar, Ed Otis, Albert Royston, Will Job and A. L. Nash.

Spent Day in Maryville.

Mr. and Mrs. G. W. Nicholas and Frank Hutchison, of Burlington Junction, spent Thursday visiting friends in Maryville.

No Paper July 4th.

There will be no edition of the Democrat-Forum on July 4, and the office will be closed during the day.

DEATH OF ABRAHAM JONES.

Pioneer Resident of Nodaway County Died Wednesday—Burial Thursday.

The funeral services of Abraham Jones of Burlington Junction, who died Wednesday afternoon, were held Thursday afternoon at the Methodist church of Burlington Junction, conducted by the Rev. L. C. Sappenfield. Mr. Jones was one of the best known residents in that vicinity, having made his home there for about forty-five years. He was nearly 89 years old. For some time his health had been very poor and his death was not unexpected. He began gradually to decline in health some time ago, and for a week previous to his death had been unable to take any nourishment.

His wife died four years ago and he is survived by eight children. Four of the children, Mrs. Debbie McClain of Burlington Junction, W. W. Jones of St. Joseph, E. O. Jones of Osborn, Kan., and Mrs. Fulkerson of Kingman, Kan., were present at the funeral.

Mr. Jones was a veteran of the civil war. The body was interred in the Ohio cemetery, near Burlington Junction.

HORSE STOPS CAR BY KICKS.

Mare Believed She Had Right of Way and Battered S. G. Gilliam's Auto.

The Hopkins Journal tells the following story about S. G. Gilliam of the Gilliam-Jackson Loan and Trust company of Maryville:

Mr. Gilliam was driving from Hopkins to Maryville last Friday night. The night was dark, so he did not see an old mare and her colt leisurely walking in the middle of the road until he was within two or three rods of them.

He slapped on the brakes and began to honk, but the old mare stubbornly kept the middle of the road, and before he knew it Mr. Gilliam and his car were onto her heels and the old mare instead of becoming frustrated and jumping to one side, began to kick and kept on kicking until she knocked both lamps off the car and made the radiator look as if it had been used as a back stop in some ball park.

Mr. Gilliam had to "back up" and drive to the left of the old mare or he would likely have been there yet, as the animal showed no signs of surrendering any part of the highway.

HOME PAPER PRAISES YEOMANS.

Hopkins Journal Predicts Unanimous Vote in Township For Present Deputy Clerk.

Fred J. Yeomans is a candidate for the nomination for county clerk of Nodaway county, subject to the Democratic primaries to be held August 4.

Fred is a Hopkins boy, well qualified to fill the position to which he aspires, and there is little doubt but what he will be nominated, his party fully realizing that he is the strongest man they can put up.

He has many friends in this township among men of all parties who are anxious for his success.

It is thought the vote at the primaries will be unanimous for him in this township.—Hopkins Journal.

Services at White Cloud Sunday.

Rev. Lewis M. Hale, pastor of the First Baptist church, will preach Sunday afternoon at the White Cloud Baptist church, south of the city. The service will begin at 2:30 o'clock.

Mr. and Mrs. J. R. Gallagher, of Bedford, spent Wednesday visiting friends in Maryville.

JUDGE TO SPEAK

W. C. ELLISON ON WALKER, MINN., FOURTH PROGRAM.

P.S.—HE IS BACK HERE

Affair Seems to Be Another of Those Jokes the Jurist Fishermen Always Play On Each Other.

Word has just come to The Democrat-Forum that Judge W. C. Ellison, who is spending his vacation at Walker, Minn., is not acting naturally. Judge Ellison left Maryville three weeks ago for a fishing trip with Judge J. W. Peery of Albany and Judge Kelso and Colonel Sayle of Grant City. The news which reached here this morning says that Judge Ellison is doing things he has never done before. He is going to make a speech. Judge Ellison is a man who rarely makes a public address. It is a hard matter to get him to go around the district and talk up himself even in a political campaign. And now comes the announcement that he is to be the orator of the day at a big Fourth of July celebration. As the day's program has it: "The Hon. Judge Ellison will deliver his famous lecture on 'How to Catch Rock Bass.'"

The message which brought this news to Maryville says:

"We are pleased to inform you that your fellow-townsmen, Judge Ellison, who has been with us a few weeks, and who we are pleased to say is a most excellent gentleman, has not only developed a high degree of piscatorial art, but has taken to the lecture field. He will on the Fourth of July, entertain our people with his unsurpassed lecture on 'How to Catch Rock Bass.'"

P. S.—Since the foregoing dispatch was received this morning Judge Ellison arrived in town. An interview with him was unobtainable, and it is not known why he returned before delivering his lecture to the people of Walker. Many persons suspect, however, that the story is another one of the many jokes the judge and his companions play on each other during their yearly fishing trips.

Sues For a Divorce.

A suit for divorce filed today was by Shinabargar, Blagg & Ellison for Matilda T. aBrker vs. Charles S. Barker. They were married in Sullivan county, Mo., August 9, 1909, and lived together until August 7, 1911. Desertion and indignities are alleged. The plaintiff asks for her former name, Matilda T. Hall, to be restored to her. The defendant is a non-resident of the state.

To Visit at Maitland.

Mrs. A. M. Campbell will leave Friday morning for Maitland to spend a few days with her brother, Robert Conner.

Mrs. Sturm Better.

Mrs. John Sturm, the mother of Nick Sturm, who has been quite ill for some time, is improving.

Deafness Cannot Be Cured

Local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface. We will give one Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular, free.

FIRST AID FOR JULY FOURTH.

Simple Remedies That May Save Lives
Next Saturday—A Doctor Should
Be Called Always.

Most of the ills caused by the Fourth of July are preventable. And every household where there are children who are allowed to play with fireworks should be prepared for any sort of emergency.

Of course, a physician should be called to attend to any burn or wound. But before he comes, the household remedy cupboard should be called on for assistance. The right remedy at the right moment, administered by a steady hand, backed by a cool brain, is worth its weight in gold in case of an accident with fireworks.

In the case of any wound following an explosion, cleanliness is of vital importance. The majority of deaths from Fourth of July injuries can be traced not to the actual explosion, but to lockjaw, which sets in from a carelessly dressed wound. This must be borne in mind by the mother or older members of the family who dresses the small boy's injuries, when a surgeon cannot be obtained at once.

Here are some of the things which every mother should have at hand on the Fourth: A porcelain or agate pitcher and basin, a package of absorbent cotton and one of iodoform gauze, some safety pins, a carbolic solution, a solution of linseed oil and lime water; a solution of boric acid, antiseptic soap, flaxseed for poultices, and a surgeon's probe. The carbolic solution is known as the "2 per cent," a teaspoonful of carbolic acid to a pint of water. The boric solution calls for a teaspoonful of the acid to a glass of warm water.

The simplest form of injury from fireworks is the burn. Unless the patient inhales the flames or is terribly burned, fatal results do not follow, but the pain is excruciating. A wise precaution is to dress children sensibly for the day in heavy clothes, and not in fluffy, inflammable materials. The young girl in lawn or organdy, trimmed with filmy lace, who undertakes to help her father set off the fireworks at night, literally takes her life in her hands, as a spark from rocket or roman candle can set her dress ablaze.

Should such a catastrophe happen, snatch a shawl or a porch rug, wrap the girl in it and roll her on the ground. If the clothing sticks to the burned spot, wet it with water or oil and cut it away from the wound. If the burned space is large, dress a little at a time, excluding the air. This last is important, as the contact of air with the burned surface not only causes pain, but is largely responsible for scarring.

Cover the burn with a solution of linseed oil and lime water, and swathe in the antiseptic gauze. If the patient suffers from shock, this condition will be indicated by coldness of the entire body, feeble pulse and drooping eyelids, if not complete insensibility. Apply hot water bottles around the body, rub the arms and legs, and apply mustard plasters to the wrists and the soles of the feet. If the patient is conscious, administer milk, tea or coffee, but do not give an alcoholic stimulant until ordered to do so by the surgeon, who should be summoned at once.

In case of slight burns, use the same solution of linseed oil and lime water, and bandage with the gauze. Simple remedies for burns from punk and matches, of which children acquire a goodly number on the Fourth, are white of egg, which covers the burn like mucilage and keeps out the air, and common baking soda in the proportion of one tablespoonful of soda to half a glass of water. Cover the gauze.

Another very common accident on Independence Day is the explosion or shooting of powder into the face. Do not allow the boy to pick this powder out for himself, but send him at once to a surgeon, after covering it with antiseptic solution and covering it with antiseptic gauze. This does not relieve the pain or remove the powder, but it does prevent small, dirty hands from carrying poisonous matter into

torn pores.

When the powder is blown into the eyes and the injury seems slight, do not touch with the fingers, but have the patient bathe the eyeballs with the solution of boric acid, one teaspoonful of acid to a glass of warm water. This will prevent bloodshot, but the patient should be taken at once to an oculist, or, if one can not be found, to a regular surgeon, so that the exact extent of the injury may be learned and immediate steps taken to prevent blindness.

When Mother Reads Aloud.

When mother reads aloud, the past
Seems real as every day;
I hear the tramp of armies vast,
I see the spears and lances cast,
I join the thrilling fray;
Brave knights and ladies fair and proud

I meet, when mother reads aloud,
When mother reads aloud, far lands
Seem very near and true;
I cross the desert's gleaming sands
Or haunt the jungle's prowling bands,
Or sail the ocean blue;

Far heights, whose peaks the cold
mists shroud,
I scale, when mother reads aloud.

When mother reads aloud, I long
For noble deeds to do—
To help the right, redress the wrong;
It seems so easy to be strong,
So simple to be true.

Oh, thick and fast the visions crowd
My eyes, when mother reads aloud!

WITH ELECTRIC STARTER AND
GENERATOR
PRICE F. O. B. TOLEDO, OHIOConcerning The Intrinsic Price of The Overland And
The Inflated Price of Some Other Cars

Probably the most confusing problem every automobile buyer faces is the wholesale manner in which many automobile dealers seem to willingly cut prices.

In fact this evil has grown so bad of late that some explanation is necessary.

In the automobile business, the fault does not lay entirely with the dealer. It can be traced, directly, to the manufacturer. And here is how it is worked out:

Many manufacturers place a price on their car which is anywhere from 20 to 30 per cent above its intrinsic value. Thus they figure they can give the dealer a high theoretical discount (which he cannot earn) as well as a high price (which he cannot get) so that he (the dealer) can juggle the price around to his heart's content, and, by offering his product at an apparently cut price can deceive the public into believing they are saving some money. Or else they leave the price alone and throw in an extra tire or two all of which amounts to the same thing.

This is a notorious snare and one of the oldest deceptions known to business.

For the advertised price was inflated from the start.

Right down in his heart the manufacturer knows that in order to meet competition the dealer must cut the advertised price. Thus the manufac-

turer thinks that because the dealer can slightly cut this inflated price it will act as a great inducement to the buyer. The trick being, that because the dealer cuts the swollen price the buyer is supposed to be duped into believing he is getting a bargain—whereas exactly the opposite is true.

For instead of getting more for the money the buyer still gets less for more money.

The car—the price of which fluctuates at the will or whim of the dealer on the pretense or subterfuge of effecting a saving—is a good car NOT to buy.

Beware of the dealer who has a fluctuating scale of prices. He is a good man to stay away from. By necessity any car that he handles must have a fluctuating value and must have back of it a fluctuating service. Can you go into John Wanamaker's in New York and attempt to strike a bargain?

Can you go into Marshall Field's in Chicago and start to haggle over the price of anything?

If you want a Big Ben clock, a Victrola, a Howard Watch, a Steinway Piano, a Gillette Safety Razor, or any one of a hundred other staple articles—haven't you got to pay the advertised price which is fixed at its source of manufacture?

So it is with the Overland car. The price is fixed at the factory. The price is made as low as it can be made. Value considered—none are lower.

The fact that the Overland price is maintained in spite of pretty keen competition is pretty good evidence of the stability of our dealers and the faith the public have in the Overland car itself.

Even the cut prices of other manufacturers are usually above our staple prices.

We have but one logical inducement to offer—the car itself at the advertised price—no more—no less.

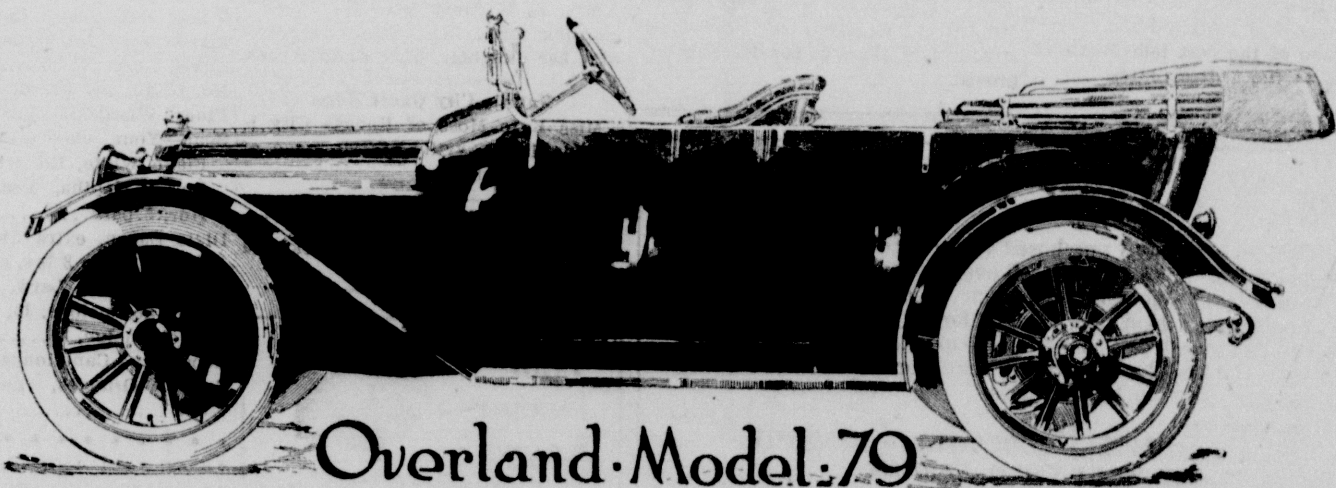

The fact that we are shipping over 5,000 cars a month—the fact that we are doing more business than any of those offering inflated car values—the fact that we do more business in one month than some manufacturers do in twelve months—proves that our policy must be fundamentally correct, and that the policy of some of the others must be fundamentally incorrect.

Careful comparison with other cars will show that a car of the Overland quality and mechanical efficiency offers much greater intrinsic value for less money than any other similar car in the world.

We say again—beware of the dealer who approaches you with a cut from his price. He is endeavoring to deceive you into thinking you are saving money.

We want you to become acquainted with the Overland. Come in and see us. Thorough demonstration—any time—any place.

Mrs. M. C. Wray, of Hopkins, spent Thursday visiting friends in Maryville.

A Crazy Tramp.

The people north of Hopkins, or at least some of them, were annoyed recently by some fellow wandering aimlessly around.

Some believe he is a demented harvest hand looking for yellow fields. Others believe he is a bull moose who has lost his horns and is searching

for an undiscovered river. One man is firm in the belief that he is a conscience stricken millionaire doing penance for his crimes. Another theory is that the fellow is a representative of the oil trust and is smelling around for oil—which in many places seeps out of the hillsides.—Hopkins Journal.

NEW LINES FAVORED

Representatives From Eight Telephone Central Offices Set July 29 as Date—Thinks Plan Will Carry.

The bad roads made it impossible for all the representatives of the different mutual telephone lines of the county to get into the meeting yesterday, so no definite action was taken toward the organization of the lines and the improvement of the system. Another meeting was set for Wednesday, July 29.

Eight central offices were represented at yesterday's meeting, however, and the men spent the afternoon discussing the problems they want to meet. Everyone at the meeting seemed in favor of the proposed organization and extended improvements. These improvements take up the building of new lines to lessen the present overcrowded condition and the securing of long distance service. The proposed lines are: Maryville to Savannah, Maryville to Barnard, Maryville to Graham, Maryville to Skidmore, Maryville to Quitman, Maryville to Burlington Junction, Maryville to Parnell, Burlington Junction to Wilcox, and Burlington Junction to Pickering.

At the next meeting the representatives are requested to come with instructions as to how to act, so that something definite can be done. W. O. Garrett of Maryville thinks that the tone of yesterday's meeting indicates that the proposition will receive the support of everybody and carry without trouble.

The men who attended the meeting are: Dr. J. W. Larrabee, F. H. Badger, representing Barnard; Gabe Purcell, who represented both Clyde and Conception Junction; W. P. Lemon, Jacob Burch and H. E. Bancroft of Clearmont; M. C. Noland, from Guilford; William Ritchie, representing Wilcox; William Burks of Pickering; and from Maryville, W. O. Garrett, Alfred Shackelford, H. W. Hull, William Job, Robert Craven and G. P. Balmum.

A HOPKINS BOY IN LONDON.

Prof. C. W. Wallace Has Made Great Name For Himself as Shakespearean Scholar.

A former Nodaway county boy, Charles William Wallace of Hopkins, has brought himself into prominence in the last two or three years as a Shakespearean scholar. Professor Wallace is a member of the faculty of the University of Nebraska, but for the last five years has spent most of his time in London investigating records concerning the life and works of the great dramatist. A recent article says:

Prof. Charles William Wallace of the University of Nebraska has made a remarkable series of discoveries in London which throw new light on Shakespeare's character. They prove the poet to have been a good citizen, who took a kindly interest in all who were associated with him. They also show that he was a man of high standing in the community, looked up to by private persons and officials alike. They dispose of the ancient legends that he was a reckless roisterer who spent his days and nights in bibulous carousing with fellow poets and neglected his social and civic duties.

Documents examined by Professor Wallace establish beyond question the site of the Globe theater, which was built by Shakespeare.

In the course of his investigations, Professor Wallace, assisted by his wife, has examined nearly 3,000,000 documents in the public board office of London. He is now generally regarded as the highest living authority on the events of Shakespeare's life. He has found hundreds of documents mentioning Shakespeare's name which no modern investigation has ever seen. Shakespearean scholars have engaged in endless discussions about the poet, but it was too much labor to resort to that endless mine of original information, the public record office.

MRS. G. MATTER DEAD.

Funeral Services to be Held Saturday Afternoon at Home.

Mrs. Gideon Matter died early Thursday morning at the family home, 222 West Thompson street, her death following a serious illness of more than a year.

The funeral services will be held at the home at 2:30 o'clock Saturday afternoon, conducted by the Rev. Gilbert S. Cox, pastor of the First Methodist church.

A year ago in May, Mrs. Matter was stricken with the illness which lately resulted in her death. She was 61 years old and was born in Pennsylvania, coming, when a child, to Illinois to make her home. Her maiden name was Mary A. Nafe and she was married to Mr. Matter at Freeport, Ill., December 28, 1870. Shortly after their marriage, the Matters moved to Barnard and made their home on a farm near there until about twelve years ago when they moved to Maryville.

Mrs. Matter leaves a husband, two daughters, Mrs. John Z. Curnutt and Miss Ruth Matter. She also leaves two brothers, Jesse and William Nafe, of Fort Dodge, Iowa. Both brothers are in very feeble health and it will be impossible for either to come to their sister's funeral.

Wife is Appointed Administratrix.

The probate court yesterday appointed Mrs. Mahaley E. Neal, wife of John M. Neal, who died June 14, administratrix of the estate.

The suit of the drainage district No. 1 against Milton McCleave for back taxes was withdrawn this morning.

BOOSTERS HERE

MAITLAND FOURTH ADVERTISERS IN TOWN TODAY.

THE HOPKINS PROGRAM

Candidates For County Offices Will Speak at Clearmont, Parnell and Conception Junction Saturday.

Eight motor cars, decorated with the national colors, suddenly pulled up on the square about 11 o'clock this morning, eighteen musicians in white uniforms stepped out and began to play lively airs. It was a party of Maitland persons advertising the Fourth of July celebration at Maitland.

The band, a very good one, attracted a crowd, and then a speaker announced the program that would be given in Maitland the Fourth and invited everybody to come. The boosters stayed here for dinner, leaving at 12:30 o'clock for Arkoe, Bolckow, Barnard, Rosendale and Graham. On their way here they had stopped at Skidmore, Quitman, Burlington Junction and Wilcox. The drivers of the cars were R. L. Walden, Edward Stouts, George Warner, C. D. Hrogefer, R. S. Nowlan, H. L. Bailey, Smith Meadows and E. F. Weller, Jr.

An Automobile Flower Parade.

One of the big features of the day is to be an automobile flower parade at 2:30 o'clock. Many cars are entered in the event already, and the men here today invited as many others to enter as would. The prizes offered for the three best cars are \$25, \$15 and \$10.

The afternoon address, beginning at 10:30 o'clock, will be delivered by B. Raleigh Martin of St. Joseph, formerly of Maryville.

The day's program will begin at 9 o'clock with music by the band. Then there will be a welcome address by H. T. McGrew. At 10 o'clock the horse show will begin, with contests for double and single drivers and saddle horses. After the address of Mr. Martin and the flower parade, the rest of the afternoon will be given over to races at the fair grounds. There will be horse races and mule races, two motorcycle races and foot races. In the evening there will be a band concert and fireworks display.

Everything but the racing will be free of charge.

Hopkins to Celebrate All Day.

Hopkins is to have a full day's celebration, too. It will be held in the city park, where there is plenty of shade and water.

The morning will be given over nearly altogether to music by the Blockton, Ia., band and the International Harmony club of St. Joseph. At 11:15 o'clock Miss Bertha Cross will read the Declaration of Independence. From 1 o'clock until 2 in the afternoon another musical program will be given. Then Carl D. Stanley of Corning, Ia., will deliver the address of the day. At 3 o'clock there will be a ball game at the ball grounds, but in the park there will be music by the Harmony club and a fiddlers' contest for those who do not care to see the ball game. Several short talks by the ministers of the town will be given to close the afternoon program. The evening program will begin at 6:30 o'clock with a band concert, after which there will be races and contests of different kinds. A fireworks display will be the last thing of the day.

County Candidates Will Speak. Clearmont, Parnell and Conception Junction will celebrate, too. At each of these places the candidates for county offices have been invited to speak, and nearly all of them will speak at one place or another. The Clearmont celebration will be held in the Smith grove. The Bolckow band will furnish the music, and twelve girls will give the W. O. W. drill.

Pickering is to have a union Sunday school picnic, to which everyone in the community is invited, and there people of the Herren district have planned a large picnic.

\$10,000 BUILDING

ADOLPH LIPPMAN PLANS A NEW BUSINESS BLOCK.

TO HAVE DOMED ROOF

132x66-Foot Structure On West Fourth Street to Be Begun Soon—Will Be Used For Garage.

A building which will be one of the finest business houses in the city when completed, is to be built by Adolph Lippman, on his property on West Fourth street, just west of the Tribune office.

The work will be commenced in a very short time. The plans for the new structure were drawn by J. L. Mitchell, a Chicago architect, and a Maryville contractor is now figuring on the estimate of the work. The contract will be let in a few days and the work begun.

The approximate cost of the building is to be \$10,000. It will cover the entire ground space with a frontage of 66 feet and a depth of 132 feet.

The unusual feature of the building will be a dome roof with only side supports, leaving the entire floor space clear. At the top of the side walls, supporting the hemispherical roof, will be seven huge cross beams, and there will be two main entrances of uniform style. Pressed brick will be used for the entire building with gray stone and marble for the trimmings.

It is to be used for a garage and has been leased to a Maryville firm for occupancy as soon as finished, which will be about January 1.

Interesting Baby Contest

All the babies in Maryville are having their pictures taken. Some are laughing, some are crying, some are out playing and others are just posing. Every baby has a mamma and every mamma has scores of friends who will be interested in seeing the pictures of all these cunning babies. Tonight at the popular New Star Theatre, there will be held a lively contest. All the babies' pictures will be shown on the screen and everybody present will be privileged to vote for their favorite baby. A beautiful, solid gold ruby set ring goes to the baby winning the most votes. Second and third prizes will also be given. If any baby in town has not been called, he may leave his name and address at the box office at the Star Theatre and the camera man will gladly call at the house. To every baby entering the contest there will be given a portrait of itself.

Grizzlies Add Another Game to Lead.

The Grizzlies, who are leading in the Normal school base ball tournament, won another game yesterday afternoon, defeating the Giants by a 5-4 score.

The Giants, although hampered by the absence of Captain Ferguson, played good ball. Each team made three scores in the first inning. The Giants took the lead in the next round, making one score, but were tied in the fourth, when an error on their part let Campbell score. Bird scored on a sacrifice hit in the last inning, winning the game for the Grizzlies.

The Athletics are playing the Giants this afternoon.

Found to Be of Unsound Mind.

Solomon Clark of Pickering was found to be of unsound mind and incapable of managing his affairs, by a jury in probate court late yesterday afternoon. Howard Wray of Pickering was appointed guardian of person and estate. The jury in the case was composed of W. A. Townsend, J. H. Thorp, Cooper Gooden, R. P. Hosmer, LeGrand Gann, A. R. Ledgerwood, Ezra Phipps, Ray Farrar, Ed Otis, Albert Royston, Will Job and A. L. Nash.

DEATH OF ABRAHAM JONES.

Pioneer Resident of Nodaway County Died Wednesday—Burial Thursday.

The funeral services of Abraham Jones of Burlington Junction, who died Wednesday afternoon, were held Thursday afternoon at the Methodist church of Burlington Junction, conducted by the Rev. L. C. Sappenfield. Mr. Jones was one of the best known residents in that vicinity, having made his home there for about forty-five years. He was nearly 89 years old. For some time his health had been very poor and his death was not unexpected. He began gradually to decline in health some time ago, and for a week previous to his death had been unable to take any nourishment.

His wife died four years ago and he is survived by eight children. Four of the children, Mrs. Debbie McClain of Burlington Junction, W. W. Jones of St. Joseph, E. O. Jones of Osborn, Kan., and Mrs. Fulkerson of Kingman, Kan., were present at the funeral.

Mr. Jones was a veteran of the civil war. The body was interred in the Ohio cemetery, near Burlington Junction.

HORSE STOPS CAR BY KICKS.

Mare Believed She Had Right of Way and Battered S. G. Gillam's Auto.

The Hopkins Journal tells the following story about S. G. Gillam of the Gillam-Jackson Loan and Trust company of Maryville:

Mr. Gillam was driving from Hopkins to Maryville last Friday night. The night was dark, so he did not see an old mare and her colt leisurely walking in the middle of the road until he was within two or three rods of them.

He slapped on the brakes and began to honk, but the old mare stubbornly kept the middle of the road, and before he knew it Mr. Gillam and his car were onto her heels and the old mare instead of becoming frustrated and jumping to one side, began to kick and kept on kicking until she knocked both lamps off the car and made the radiator look as if it had been used as a back stop in some ball park.

Mr. Gillam had to "back up" and drive to the left of the old mare or he would likely have been there yet, as the animal showed no signs of surrendering any part of the highway.

HOME PAPER PRAISES YEOMANS.

Hopkins Journal Predicts Unanimous Vote in Township For Present Deputy Clerk.

Fred J. Yeomans is a candidate for the nomination for county clerk of Nodaway county, subject to the Democratic primaries to be held August 4.

Fred is a Hopkins boy, well qualified to fill the position to which he aspires, and there is little doubt but what he will be nominated, his party fully realizing that he is the strongest man they can put up.

He has many friends in this township among men of all parties who are anxious for his success.

It is thought the vote at the primaries will be unanimous for him in this township.—Hopkins Journal.

JUDGE TO SPEAK

W. C. ELLISON ON WALKER, MINN., FOURTH PROGRAM.

P.S. ---HE IS BACK HERE

Affair Seems to Be Another of Those Jokes the Jurist Fishermen Always Play On Each Other.

Word has just come to The Democrat-Forum that Judge W. C. Ellison, who is spending his vacation at Walker, Minn., is not acting naturally. Judge Ellison left Maryville three weeks ago for a fishing trip with Judge J. W. Peery of Albany and Judge Kelso and Colonel Sayle of Grant City. The news which reached here this morning says that Judge Ellison is doing things he has never done before. He is going to make a speech.

Judge Ellison is a man who rarely makes a public address. It is a hard matter to get him to go around the district and talk up himself even in a political campaign. And now comes the announcement that he is to be the orator of the day at a big Fourth of July celebration. As the day's program has it: "The Hon. Judge Ellison will deliver his famous lecture on 'How to Catch Rock Bass.'"

The message which brought this news to Maryville says:

"We are pleased to inform you that your fellow-townsmen, Judge Ellison, who has been with us a few weeks, and who we are pleased to say is a most excellent gentleman, has not only developed a high degree of piscatorial art, but has taken to the lecture field. He will on the Fourth of July, entertain our people with his unsurpassed lecture on 'How to Catch Rock Bass.'"

P. S.—Since the foregoing dispatch was received this morning Judge Ellison arrived in town. An interview with him was unobtainable, and it is not known why he returned before delivering his lecture to the people of Walker. Many persons suspect, however, that the story is another one of the many jokes the judge and his companions play on each other during their yearly fishing trips.

Sues For a Divorce.

A suit for divorce filed today was by Shinabargar, Blagg & Ellison for Matilda T. aBrker vs. Charles S. Barker. They were married in Sullivan county, Mo., August 9, 1909, and lived together until August 7, 1911. Desertion and indignities are alleged. The plaintiff asks for her former name, Matilda T. Hall, to be restored to her. The defendant is a non-resident of the state.

To Visit at Maitland.

Mrs. A. M. Campbell will leave Friday morning for Maitland to spend a few days with her brother, Robert Conner.

Deafness Cannot Be Cured

Local applications, as they cannot reach the diseased portion of the ear, there is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

FIRST AID FOR JULY FOURTH.

Simple Remedies That May Save Lives
Next Saturday—A Doctor Should Be Called Always.

Most of the ills caused by the Fourth of July are preventable. And every household where there are children who are allowed to play with fireworks should be prepared for any sort of emergency.

Of course, a physician should be called to attend to any burn or wound. But before he comes, the household remedy cupboard should be called on for assistance. The right remedy at the right moment, administered by a steady hand, backed by a cool brain, is worth its weight in gold in case of an accident with fireworks.

In the case of any wound following an explosion, cleanliness is of vital importance. The majority of deaths from Fourth of July injuries can be traced not to the actual explosion, but to lock-jaw, which sets in from a carelessly dressed wound. This must be borne in mind by the mother or older members of the family who dresses the small boy's injuries, when a surgeon cannot be obtained at once.

Here are some of the things which every mother should have at hand on the Fourth: A porcelain or agate pitcher and basin, a package of absorbent cotton and one of iodoform gauze, some safety pins, a carbolic solution, a solution of linseed oil and lime water; a solution of boric acid, antiseptic soap, flaxseed for poultices, and a surgeon's probe. The carbolic solution is known as the "2 per cent.," a teaspoonful of carbolic acid to a pint of water. The boric solution calls for a teaspoonful of the acid to a glass of warm water.

The simplest form of injury from fireworks is the burn. Unless the patient inhales the flames or is terribly burned, fatal results do not follow, but the pain is excruciating. A wise precaution is to dress children sensibly for the day in heavy clothes, and not in fluffy, inflammable materials. The young girl in lawn or organdy, trimmed with filmy lace, who undertakes to help her father set off the fireworks at night, literally takes her life in her hands, as a spark from rocket or roman candle can set her dress ablaze.

Should such a catastrophe happen, snatch a shawl or a porch rug, wrap the girl in it and roll her on the ground. If the clothing sticks to the burned spot, wet it with water or oil and cut it away from the wound. If the burned space is large, dress a little at a time, excluding the air. This last is important, as the contact of air with the burned surface not only causes pain, but is largely responsible for scarring.

Cover the burn with a solution of linseed oil and lime water, and swathe in the antiseptic gauze. If the patient suffers from shock, this condition will be indicated by coldness of the entire body, feeble pulse and drooping eyelids, if not complete insensibility. Apply hot water bottles around the body, rub the arms and legs, and apply mustard plasters to the wrists and the soles of the feet. If the patient is conscious, administer milk, tea or coffee, but do not give an alcoholic stimulant until ordered to do so by the surgeon, who should be summoned at once.

In case of slight burns, use the same solution of linseed oil and lime water, and bandage with the gauze. Simple remedies for burns from punk and matches, of which children acquire a goodly number on the Fourth, are white of egg, which covers the burn like muellage and keeps out the air, and common baking soda in the proportion of one tablespoonful of soda to half a glass of water. Cover the gauze.

Another very common accident on Independence Day is the explosion or shooting of powder into the face. Do not allow the boy to pick this powder out for himself, but send him at once to a surgeon, after covering it with antiseptic solution and covering it with antiseptic gauze. This does not relieve the pain or remove the powder, but it does prevent small, dirty hands from carrying poisonous matter into

turn pores.

When the powder is blown into the eyes and the injury seems slight, do not touch with the fingers, but have the patient bathe the eyeballs with the solution of boric acid, one teaspoonful of acid to a glass of warm water. This will prevent bloodshot, but the patient should be taken at once to an oculist, or, if one can not be found, to a regular surgeon, so that the exact extent of the injury may be learned and immediate steps taken to prevent blindness.

When Mother Reads Aloud.

When mother reads aloud, the past
Seems real as every day;

I hear the tramp of armies vast,
I see the spears and lances cast,

I join the thrilling fray;
Brave knights and ladies fair and proud

I meet, when mother reads aloud,
When mother reads aloud, far lands

Seem very near and true;
I cross the desert's gleaming sands

Or haunt the jungle's prowling bands,
Or sail the ocean blue;

Far heights, whose peaks the cold
mists shroud,

I scale, when mother reads aloud,
When mother reads aloud, I long

For noble deeds to do—
To help the right, redress the wrong;

It seems so easy to be strong,
So simple to be true.

Oh, thick and fast the visions crowd
My eyes, when mother reads aloud!

WITH ELECTRIC STARTER AND
GENERATOR
PRICE F. O. B. TOLEDO, OHIOConcerning The Intrinsic Price of The Overland And
The Inflated Price of Some Other Cars

Probably the most confusing problem every automobile buyer faces is the wholesale manner in which many automobile dealers seem to willingly cut prices.

In fact this evil has grown so bad of late that some explanation is necessary.

In the automobile business, the fault does not lay entirely with the dealer. It can be traced, directly, to the manufacturer. And here is how it is worked out:

Many manufacturers place a price on their car which is anywhere from 20 to 30 per cent above its intrinsic value. Thus they figure they can give the dealer a high theoretical discount (which he cannot earn) as well as a high price (which he cannot get) so that he (the dealer) can juggle the price around to his heart's content, and, by offering his product at an apparently cut price can deceive the public into believing they are saving some money. Or else they leave the price alone and throw in an extra tire or two all of which amounts to the same thing.

This is a notorious snare and one of the oldest deceptions known to business.

For the advertised price was inflated from the start.

Right down in his heart the manufacturer knows that in order to meet competition the dealer must cut the advertised price. Thus the manufac-

turer thinks that because the dealer can slightly cut this inflated price it will act as a great inducement to the buyer. The trick being, that because the dealer cuts the swollen price the buyer is supposed to be duped into believing he is getting a bargain—whereas exactly the opposite is true.

For instead of getting more for the money the buyer still gets less for more money.

The car—the price of which fluctuates at the will or whim of the dealer on the pretense or subterfuge of effecting a saving—is a good car NOT to buy.

Beware of the dealer who has a fluctuating scale of prices. He is a good man to stay away from. By necessity any car that he handles must have a fluctuating value and must have back of it a fluctuating service. Can you go into John Wanamaker's in New York and attempt to strike a bargain?

Can you go into Marshall Field's in Chicago and start to haggle over the price of anything?

If you want a Big Ben clock, a Victrola, a Howard Watch, a Steinway Piano, a Gillette Safety Razor, or any one of a hundred other staple articles—haven't you got to pay the advertised price which is fixed at its source of manufacture?

So it is with the Overland car. The price is fixed at the factory. The price is made as low as it can be made. Value considered—none are lower.

The fact that the Overland price is maintained in spite of pretty keen competition is pretty good evidence of the stability of our dealers and the faith the public have in the Overland car itself.

Even the cut prices of other manufacturers are usually above our staple prices.

We have but one logical inducement to offer—the car itself at the advertised price—no more—no less.

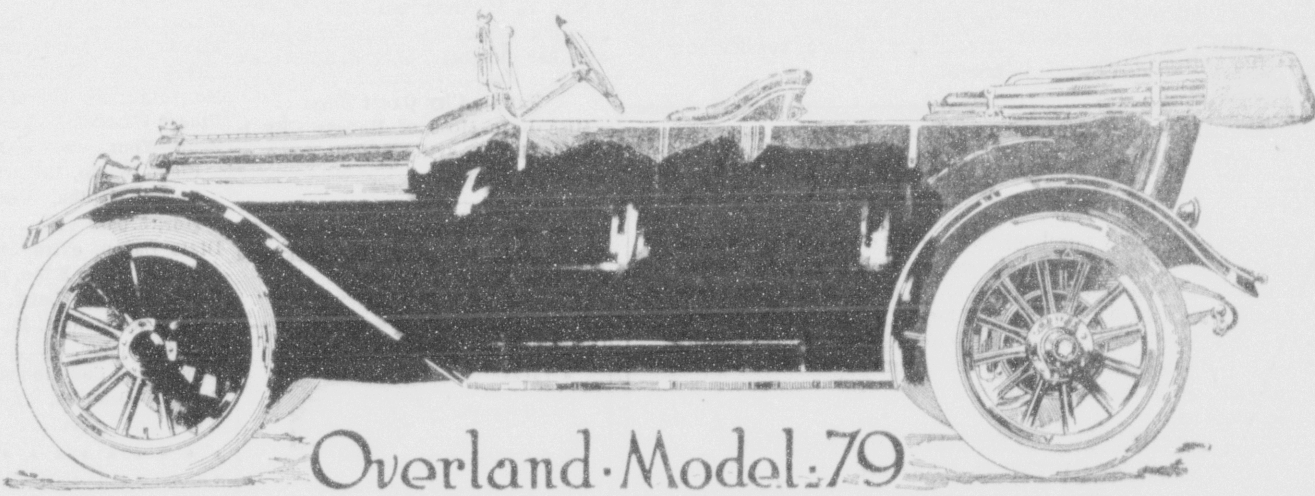

The fact that we are shipping over 5,000 cars a month—the fact that we are doing more business than any of those offering inflated car values—the fact that we do more business in one month than some manufacturers do in twelve months—proves that our policy must be fundamentally correct, and that the policy of some of the others must be fundamentally incorrect.

Careful comparison with other cars will show that a car of the Overland quality and mechanical efficiency offers much greater intrinsic value for less money than any other similar car in the world.

We say again—beware of the dealer who approaches you with a cut from his price. He is endeavoring to deceive you into thinking you are saving money.

We want you to become acquainted with the Overland. Come in and see us. Thorough demonstration—any time—any place.

A Crazy Tramp.

The people north of Hopkins, or at least some of them, were annoyed recently by some fellow wandering aimlessly around.

Some believe he is a demented harvest hand looking for yellow fields. Others believe he is a bull moose who has lost his horns and is searching

for an undiscovered river. One man is firm in the belief that he is a conscience stricken millionaire doing penance for his crimes. Another theory is that the fellow is a representative of the oil trust and is smelling around for oil—which in many places seeps out of the hillsides.—Hopkins Journal

Big Wall Paper and Paint Sale.

While in the city I purchased 4000 rolls of Wall Paper at a very low price. I am going to sell every roll of it at cost price. This paper is not a job lot assortment of odds and ends, but every pattern is a good one. I know how to buy wall paper, sell wall paper and also hang wall paper. Price for hanging butt work the best 20c per roll. Lap work 10c per roll. I guarantee all work to be first class.
